- Working with the Rules of Golf Cook, PGA

What does it take to host a chapter webcast?

GCSAA now lets chapters take advantage of webcast education. You can join a scheduled live event or select from ON DEMAND webcasts at a flat chapter fee. You hold your chapter meeting at the date and time that works best for your members. With a PC and an Internet connection, a projector and speakers, you play the 90-minute recorded presentation from one of our live events.

Complete this form, using contact information for the volunteer, and mail or fax it to us. We'll register the chapter, sending email details to let you click through the system setup and access the virtual meeting room. You'll complete a roster and send it back to GCSAA Education with each individual's completed evaluation form and we'll award 0.2 education points to each of your members.

Don't let your fear of technology stop you from trying something new. The GCSAA team is here to answer questions - call (800) 472-7878 and ask us! Let us help you simplify your meeting while providing quality education.
