

Sample Phone Script

Congressional office: Hello, Senator so-and-so's office.

You: Hello. My name is Mary Jones and I work in the district. I am calling to express my support of legislation that the Senator will be voting on today.

Congressional office: I'd be happy to relay your views to the Senator. What vote are you calling about?

Constituent: I'm calling about an amendment to the Interior Appropriation bill that would increase funding for Balloon Animal sanctuaries. It is my understanding that this proposal will allow Balloon Animals to have more freedom to roam and will keep them off the endangered species list. This is important to me because Balloon Animals helped make my child's last birthday party a wild success.

Congressional office: Thank you, I will pass that message along.

Constituent: Thank you. Could you please send me a response indicating how the Senator voted? My email address is: []
