Color Specifications
The logo is designed in four colors. When reproducing the official logo in color, it must appear in the official colors. Refer to page 10 for all color specifications.

When reproducing the logo in one color, it may be rendered in a single spot color of black. The logo cannot be rendered with any sort of transparency affect.

Questions about the use of the logos or requests for additional file formats should be directed to Mischia Wright, Assoc. Director of the EIFG, or GCSAA’s Marketing team at (800) 472-7878.
### Look & Feel
The GCSAA look and feel is established by the consistent use of a specified color palette, photography style, fonts and messaging.

### Color Palette
Use of primary and secondary colors and their screens is preferred. If primary and secondary colors cannot be used, pull colors from photos staying with earth tones.

### Print vs. Digital
When doing traditional printing, use of PMS or CMYK is required. PMS is a solid color, while CMYK is a blend used to make the desired color. For spot colors, the lighter green “hole/cup” at the bottom of the flag icon is a 50% screen of the Green PMS 7484C (coated paper) or 342U (uncoated paper).

When designing for screens or web sites, using the hexadecimal (#) color is required for digital assets. This allows the color to be displayed properly on screens.

Reproduction sizes: The logo with the “Golf Course Superintendents Association of America” lettering spelled out below should be used when reproducing the logo with at least 2 inches horizontally or 60 pixels high for web use. If the logo is to be used at smaller sizes (usually for stationery, web sites and merchandise), the lettermark version without the lettering below must be used.

One-Color Logo: When three colors are not available, printing in black, white/reversed or in PMS 7484C for coated paper or 342U for uncoated is permitted.

GCSAA Chapter Logo Usage: The logo may be used on web sites, stationery, correspondence flags, chapter collateral pieces, its own merchandise, advertisement and other uses that identify and promote the chapter.

It is permissible for GCSAA Chapters to utilize an older version of the chapter’s logo for limited internal member facing audiences and local events when necessary. However, when used it is recommended to be co-branded with the Chapter’s official GCSAA Chapter logo. GCSAA Chapters should use their respective official GCSAA Chapter logo for external materials and signage. For spacing and modification information refer to page 6 in the GCSAA Chapter Logo Guidelines.

No commercial use of the logo is permitted. No chapter shall use the logo to promote the sale of commercial items (chapter merchandise items not included). The logo should not be displayed in any form not authorized by GCSAA or in any manner that is disparaging to the chapter or the association.

GCSAA Chapter Logo File Types: The GCSAA Chapter logo file will be provided in the following formats: EPS, JPEG, PNG.

- .EPS: Graphics file format used in vector based images in Adobe Illustrator. Best format for high resolution printing. (Preferred for large signs, banners, used to create embroidery file: .DST)
- .JPEG: File format best used for very small files, best for web sites or email.
