Par: 36-37--73

Yardage: 7,596 (unofficial)

Stimpmeter: 10-10.5

### Course Statistics

Average Green Size: 8,722 sq. ft.

Acres of Fairway: 44.5

Acres of Rough: 52.1

Number of Sand Bunkers: 93

Number of Water Hazards: 0

Soil Conditions: Highly weathered clay soils

Water Sources: Surface from W. Maui Mtn.

Drainage Conditions: Good

### Turfgrass

Greens: TifEagle bermudagrass .115"

Tees: Celebration bermudagrass .350"

Fairways: Celebration bermuda .375"

Rough: Celebration bermudagrass 2.5"

### Additional Notes

- Winter weather is always a challenge in tournament preparation with low light conditions, slow turfgrass growth and generally wet weather.
- There have not been any major changes to the golf course from last year. There were 3.5 miles of drainage installed in approaches and professional tee boxes.
- The course was renovated in 2019 with all the greens rebuilt from the drainage up. New bunkers were added on No. 3, 5, 15, and 16.
- The leeward waters of Maui have the densest humpback whale population in the world during the winter months.

Since 1926 the Golf Course Superintendents Association of America (GCSAA) has been the top professional association for the men and women who manage golf courses in the United States and worldwide. From its headquarters in Lawrence, Kan., the association provides education, information and representation to nearly 19,000 members in more than 75 countries. GCSAA's mission is to serve its members, advance their profession and enhance the enjoyment, growth and vitality of the game of golf.
