Notable

- Torrey Pines South was the longest course played on tour last year (hosted both the Farmers Insurance and Genesis). The yardage was 95 yards longer than at the Corales Puntacana. The average course yardage last year was 7,373 yards.
- Torrey's 5,000 sq. ft. greens on the South Course were the 5th smallest on tour in 2025.
- Poa or poa overseeded greens were the most popular on tour last year with 12 tournaments taking place on those surfaces.
- Weather at end of 2025 and start of 2026 was slightly warmer and wetter than normal. The consistent rain kept air temperatures higher and more consistent resulting in higher-than-average soil temperatures. That led to a very successful overseed process with thick, healthy ryegrass.
- Rounds played has averaged 78,000 on the South and 90,000 on the North over the past few years, so managing wear and tear is always a focus.
