AquaFuse to Showcase Innovative HDPE Irrigation Solutions at the 2026 GCSAA Conference and Trade Show

- Professionals are invited to visit Booth #1860 to learn more about AquaFuse's highly regarded award-winning HDPE irrigation products-

SAN DIEGO, CA – JANUARY 30, 2026 – AquaFuse® by CMF Global, Inc., a prominent provider of HDPE irrigation solutions for commercial landscapes and golf courses, has announced its participation in the 2026 GCSAA Conference and Trade Show. The company will showcase its latest HDPE irrigation components and piping at the event, which is scheduled to take place from February 2-5, 2026, at the Orange County Convention Center.

AquaFuse has experienced substantial and sustained growth for over two decades. Initially established to support irrigation distributors internationally, the company has developed into a highly respected and innovative leader within the turf, landscape and golf irrigation industries.

The introduction of advanced, proprietary HDPE irrigation products, such as the high-performance Control 360 Ball Valve—recognized as the company's flagship valve—and the fully fused HDPE AquaSaddle, has significantly transformed industry standards.

The AquaFuse team cordially invites attendees to visit Booth #1860, where a representative will provide a personalised overview of the company's latest high-density polyethylene (HDPE) irrigation products, as well as its comprehensive portfolio of reliable HDPE solutions.

About AquaFuse by CMF Global, Inc.

CMF Global, Inc. leads the irrigation industry with its AquaFuse HDPE piping systems, featuring heat-fused components that ensure zero leakage and over a century of service life, backed by a 25-year warranty. The AquaFuse Piping System is LEED-qualifying for sustainability and often replaces outdated, leaking metal pipes on golf courses, conserving water, and reducing costs. The company offers onsite AquaFUSION training for installers, ensuring safe and effective assembly. CMF Global has received awards including Exporter of the Year from both the World Trade Center (2012) and the SBA (2013).
