

Fish Head Farms, Inc. Provides an Update in Golf and Turf Markets

CRANSTON, R.I.-- Fish Head Farms, Inc is providing an update on its progress in the Golf and Turf markets in the United States.

Fish Head Farms manufactures, markets, and distributes FISH SH!T, the most robust beneficial bacteria product available for use in the Golf Course Maintenance, Turf, Agricultural and Cultivation markets. With over 4,000 specific and distinct species of microbes in every bottle, and billions of microbes in every dose, FISH SH!T is 100% organic, OMRI, CDFA, USDA Bio Preferred, and CFIA certified.

The unique combination of microorganisms in FISH SH!T provides a range of benefits to plants and soil. The microbes in FISH SH!T are designed to break down complex organic and synthetic matter and release essential nutrients into the soil. FISH SH!T is a potent bio stimulant which aids plant growth and development by increasing tap root growth, root diameter, soil water holding capacity, microbial activity, and nutrient availability.

For the year ending 2025, Fish Head Farms has made significant strides in the golf and turf markets, including:

- Instituting a Limited Distribution Network for the Eastern part of the United States, which will be serviced by Advanced Turf Solutions, Genesis Turf Grass, and Metro Turf Specialists. Providing over ninety field representatives covering over 8,000 golf courses, to better service our customers.
- Partnering with The Lawn Doctor to provide FISH SH!T as an organic, sustainable, effective product, for their national customer base
- Selling FISH SH!T to over 1,500 golf courses who use the product as a part of their maintenance regimen
- Selling FISH SH!T to hundreds of Turf and Ornamental customers for use on various applications
- Completing a National Golf Course Study, showing among many other benefits; FISH SH!T increased mycorrhizal abundance by +53.2%, increased Phosphorus availability by +26.3% and increased Tissue Nutrient Uptake

Joe Blanchard, Fish Head Farms Chief Revenue Officer, said, "We are thrilled to have made noteworthy progress in the Golf and Turf market over the last year, as well as partnering with some of the most well-known and respected companies in the field. We look forward to continuing to grow and expand our footprint in the Golf and Turf markets in 2026 and feel confident we are well positioned to do so with the outstanding partnerships we have in place and will continue to develop in the New Year".
