Hunter Golf to Showcase Cutting-Edge Control Solutions at the 2026 GCSAA Conference

SAN MARCOS, Calif. — January 2026

Hunter Industries will celebrate the GCSAA centennial by introducing its next generation of golf innovations at this year's conference in Orlando, Florida.

Attendees are invited to experience live Pilot Navigator™ App demos, preview new Pilot® Communication Modules, and get a firsthand look at the cutting-edge solutions superintendents count on to manage their courses with confidence.

- Pilot Navigator App: Superintendents can put the powerful features of Pilot in their pocket, allowing them to command their system from any location on any device
- Pilot Communication Modules: Three new modules deliver high-speed, direct-to-cloud communication that opens the pipeline to future integrations
- TTS-800 Series Golf Rotors: Combining Total-Top-Serviceability, consistent performance, and built-in reliability, these rotors keep courses ready for play at all times

“With new innovations like the Pilot Navigator App and Pilot Communication Modules, we’re equipping irrigation professionals with smarter, easier, and more reliable ways to manage irrigation. Paired with our powerful TTS-800 Series Golf Rotors, these solutions deliver the superior performance superintendents rely on to keep their turf in top condition.”

—Carl Eberts, Golf Category Manager
